About Company

The strength and success of Sparten Granito lie in its sound infrastructure which has advanced manufacturing facilities that comprise the latest machinery and advent-grade technologies.
The ultra-modern plant supported and run by technically sound staff ensures that Sparten Granito is indeed matchless when it comes to ceramic tilling solutions.

Sperita Granito has developed in leaps and bounds by getting into the greater pool of technology, by adopting italian technology which has benefitted customers in all arenas since factors like optimization, calibrations, sizing, and designing is taken great care off.
Technology providers in the ceramics field who realized the potential & sincerity of the company preferentially offered us and distributors the best support to strengthen individual positions in our respective markets.
